What are cookies

Cookies are small files stored on your phone or computer when you visit our website. They help us make the site work properly and improve it.

Which cookies do we use

We use two types of cookies:

- Functional - Required for the website to work. These are always active.
- Analytics - These show us which pages are popular and how visitors use the site. This helps us improve the site. Our analytics service keeps the measured data for 14 months (see our privacy statement, article 10). That is separate from how long the cookies stay in your browser.

Statistics without cookies

Our hosting provider counts visits without cookies and does not follow you across days; that is why we do not ask for consent for it. More in our privacy statement, article 15 'Visitor statistics without cookies'.

Your choice

Functional cookies are always active - the site does not work without them. We only place analytics cookies if you give your consent.

You can change your preferences at any time via 'Cookie settings' at the bottom of the page.

Questions

Do you have questions about our cookies? Email us at info@itcomsol.nl.
